# Performance Measurement Report

SECOND QUARTER 2021

**SCERS**

SACRAMENTO COUNTY  
EMPLOYEES'  
RETIREMENT SYSTEM

## SCERS Real Estate Portfolio Overview

- SCERS recently changed the target real estate allocation from 7% to 9% with the allowable range changing to 7.0%-11.0%. As of the end of the second quarter, 2021 (the “Quarter”), the Real Estate Portfolio was below the new real estate target but within the allowable range at 7.1%. Core Real Estate currently makes up 72.7% of the portfolio, with Non-Core Real Estate making up the remaining 27.3%.

### SCERS' Real Estate Portfolio Construction:

	Minimum	Target	Maximum
Total Real Estate Program	7.0%	9.0%	11.0%
	Minimum	Target	Maximum
Core Real Estate	50%	65%	80%
Non-Core Real Estate	20%	35%	50%
Non-U.S. Real Estate	0%	0%	30%

- Performance of the Core Portfolio is evaluated over rolling 10-year time periods relative to the NCREIF Fund Index of Open-End Diversified Core Equity funds (“NFI-ODCE”), net of fees. The NFI-ODCE represents the aggregation of twenty-six Core open-end commingled funds invested across the United States.
- In July of 2017, Staff and Townsend recommended revising the Real Estate IPS to reflect transition away from IMAs, including removal of the Core vehicle constraints of 0-60% (30% target) for funds and 40-100% (70% target) for IMAs, which was subsequently approved by the Board.
- In 2018, SCERS’ IMA Program transitioned to a commingled fund manager. Following an extensive bidding, selection and structuring process, Staff and Townsend selected Clarion’s Lion Properties Fund as the recipient for the IMA Portfolio. Given the size of the IMA Portfolio, SCERS reduced concentration risk by allocating funds to an additional manager, Brookfield’s Premier Property Partners, in order to achieve greater diversification within the Core Portfolio. SCERS’ investment in Brookfield Premier Property Fund was funded October 1, 2018.
- The loan-to-value ratio of the Private Real Estate Portfolio was 36.6% at the end of the second quarter of 2021. The loan-to-value ratio of the Core Portfolio was 31.1%, below the 40.0% leverage constraint for Core as approved by the Board. As a point of reference, the loan-to-value ratio of the NFI-ODCE was 22.6% as of the second quarter. The Non-Core Portfolio reported a loan-to-value ratio of 47.7%.

## Portfolio Funding Status

- The following slides provide a review of key information of the SCERS Real Estate Portfolio (the “Portfolio”) through June 30, 2021.
- A detailed performance report is also provided in **Exhibit A**.
- Figures exclude commitments / redemptions / dispositions approved subsequent to Quarter-end and future distributions.
- Unfunded commitments may never be fully drawn.

SCERS Portfolio Snapshot <i>As of June 30, 2021</i>	Market Value (in millions of dollars)*	% of SCERS Plan	% of Real Estate

• Figures may not add due to rounding

\*\* The 9% Private Portfolio (RE) target and permissible range were approved subsequent to 6/30/2021

## Private Real Estate Consistent Strong Performance

- The SCERS Private Real Estate Portfolio includes: (1) Core Real Estate and (2) Non-Core Real Estate.
- The SCERS Private Real Estate Benchmark is comprised of the NFI-ODCE (Core Benchmark, net) (65%) and the NFI-ODCE + 100bps (Non-Core Benchmark, net) (35%), resulting in an NFI-ODCE + 35bps (net) portfolio benchmark.
- The SCERS Total Real Estate Portfolio outperformed the benchmark over all time periods driven by the robust performance of the Core funds as well as the Non-Core investments.
- During the second quarter of 2021, the SCERS Private Real Estate Portfolio outperformed the benchmark by 207 basis points led by the positive performance of both the Core portfolio and the Value Added investments.

## Strong Core Portfolio Performance

- The SCERS Core Portfolio consists of seven open-end Core Commingled funds. The Core Commingled Fund exposure includes, MetLife Core Property Fund, Principal U.S. Property Account, Prologis Targeted U.S. Logistics Fund, Prologis European Logistics Fund, Townsend Real Estate Fund, Brookfield Premier Real Estate Partners, and Clarion’s Lion Properties Fund.
- Performance of the Core Portfolio is evaluated relative to the NCREIF Fund Index of Open-End Diversified Core Equity funds (“NFI-ODCE”), net of fees. In aggregate, the Core Portfolio outperforms the NFI-ODCE, net of fees, over all displayed time periods.
- During the Quarter, Prologis Targeted U.S. Logistics Fund was the strongest absolute performer and largest contributor, generating 11.7% in net returns as the fund witnessed the strongest valuation uplift in PELF’s history.
- while Townsend Real Estate Fund was the largest contributor to the SCERS Core Portfolio with the funds generating 5.3% and 3.7% in net returns, respectively.
- The SCERS Core Portfolio performed above the CPI + 500 bps (the SCERS Real Asset benchmark) over all time periods.
- SCERS still has one outstanding redemption with Clarion’s Lion Properties Fund with less than \$5 million remain to be distributed. To date, the fund has distributed \$15.8 million from the \$20 million redemption request.

\*EX-US funds produced the following 2Q21 net returns in local currency: Prologis European Logistics Fund (Euro) 6.4%.

## Robust Non-Core Portfolio Performance

- The SCERS Non-Core Portfolio includes both Value Added and Opportunistic Real Estate strategies, which are defined in the Glossary of Terms.
- The Non-Core Portfolio outperformed the benchmark over all time periods except for the 3 year period.
- During the quarter, the Non-Core Portfolio outperformed the benchmark led by strong returns among Value Added investments, 7.8% in net returns.
- NREP Nordic Strategies Fund II was the largest contributor and strongest performer on an absolute basis with the fund recording 16.5% in net returns. NREP II's strong performance is attributed to an appreciation in the fund's assets overall as a result of strong leasing activities.

*\*EX-US funds produced the following 2Q21 net returns in local currency: DRC European Real Estate Debt Fund II (Pound Sterling) 3.0%, ECE European Prime Shopping Centre Fund II (Euro) 1.3%, NREP Nordic Strategies Fund (Euro) 0.3%, NREP Nordic Strategies Fund II (Euro) 15.5%, NREP Nordic Strategies Fund III (Euro) 6.2%, NREP Nordic Strategies Fund IV (Euro) 8.0%, Carlyle China Realty Fund (Chinese Yuan) (1.8)% and Carlyle's Project Rome (Chinese Yuan) (0.2)%.*

## Ex-US Portfolio Performance

- Approximately 26.4% of the SCERS Portfolio is comprised of Ex-US investments. SCERS does not currently hedge its foreign currency exposures and pays liabilities in US Dollars. As such, FX movement will impact performance for Ex-US investments. The chart above isolates European and Asian investments and displays performance both before and after currency conversion.
- Currency movement has positively impacted foreign investments over the trailing quarter. However, currency impacts on performance tend to be cyclical in nature.
- The SCERS Euro Denominated Composite includes: ECE European Prime Shopping Center Fund II (Euro) 1.3%, NREP Nordic Strategies Fund (Euro) 0.3%, NREP Nordic Strategies Fund II (Euro) 15.5%, NREP Nordic Strategies Fund III (Euro) 6.2%, NREP Nordic Strategies Fund IV (Euro) 8.0% and Prologis European Logistics Fund (PELF) 6.4%.
  - Since Inception period begins 1Q15.
  - For the purposes of this composite, DRC has been excluded since it is a Pound denominated fund.
- The SCERS Chinese Yuan Composite includes: Carlyle China Realty Fund (Chinese Yuan) (1.8)% and Carlyle's Project Rome (Chinese Yuan) (1.7)%.
  - Since Inception period begins 3Q17.
  - SCERS' Carlyle investments are USD denominated at the fund level, but property values are exposed to currency translation.

## Performance Attribution

- SCERS total portfolio's positive performance over the 1-year period is primarily attributed to the solid performance of the Core OECFs.
- Over the trailing year, four OECFs within the SCERS portfolio were in the top contributors to overall portfolio performance. The funds include Prologis Targeted U.S. Logistics Fund, Townsend Real Estate Fund, Prologis Targeted Europe Logistics Fund and LionProperties Fund.
- Additionally, the Value-Added portfolio contributed positively to the performance with NREP Nordic Strategies II taking the lead in the greatest portion of overall returns.
- CIM Fund VIII has been the largest detractor over the trailing year as the fund's performance challenges were exacerbated by COVID-19, specifically due to the fund's development-heavy strategy and exposure to the New York City market.
- DRC European Real Estate Debt Fund II's performance was hit by significant write-downs in two of the fund's shopping malls dragging down the trailing year performance.
- KKR Real Estate Partners was negatively affected during the pandemic period, especially in the office and retail assets in France. Nonetheless, the fund performed well with the realized assets.

## Real Estate Private Portfolio Diversification – Property Type

- The diversification of the Private Portfolio is compared to the diversification of the NFI-ODCE, and has a maximum limit of 40% for each property type, except for the “other” property type which has a maximum limit of 25%\*\*. The Real Estate Policy also allows for temporary deviations in order to provide SCERS with the flexibility required to overweight or underweight property types during certain parts of the market cycle.
- As of the second quarter, the industrial property type was the only sector outside the current set limit of 40%. Townsend and Staff will continue to monitor the industrial property type fundamentals for opportunities to tactically reduce exposure if secular growth trends moderate. However, Townsend’s current views support an overweight to the industrial sector.
- The “Other” property type exposure represents Sculptor Real Estate Fund III\* (parking, senior housing and cell towers), Sculptor Real Estate Fund IV (parking), KKR Real Estate Partners Americas (senior housing), CIM Fund VIII (condominiums), Hammes Partners II and III (medical office), Townsend Real Estate Fund (senior and student housing), NREP Nordic Strategies Fund II (student housing) and NREP Nordic Strategies Fund III (senior living and land).

\*Sculptor Real Estate Fund III was previously called Och-Ziff Real Estate Fund III.

\*\* The 25% limit is for “Other” property type exposure including hotels. However, our chart currently separates the “Hotel” property sector from “Other” due to be aligned with the ODCE classifications.

# Real Estate Private Portfolio Diversification – Geographic Region

- The diversification of the Private Portfolio is compared to the diversification of the NFI-ODCE, with a permissible deviation of  $\pm 10.0\%$  for each region. Ex-US exposure is limited to 30.0% of the Total Private Portfolio.
- As of the second quarter, the Private Portfolio was in compliance across all regions. However, tactical overweight/underweight positions may exist over time.
- The Private Portfolio's international exposure is 26.4%, well within its 30% constraint, and will remain similar as Sculptor Real Estate Fund III\* and IV, NREP Nordic Strategies Fund III and IV continue to call capital and purchase assets in Europe while older vintage funds liquidate.
- Ex-US exposure consists of 4.16% in China, 3.92% in Denmark, 2.53% in Finland, 2.99% in Germany, 2.10% in France, 3.37% in Sweden, 1.28% in Netherlands, 1.53% in Poland, 1.43% in the UK, 0.98% in Spain, 0.90% in Italy and 1.21% in other countries.

\*Sculptor Real Estate Fund III was previously called Och-Ziff Real Estate Fund III.

## Private Real Estate Performance – Global Ancillary Benchmark (1Q21)

- The Global Ancillary Benchmark is made-up of the NFI-ODCE (Core), NFI-ODCE + 100bps (Non-Core), GREFI Europe Core, GREFI Europe Non-Core, and GREFI Non-Core Asia Pacific to create a global blended benchmark based on weighted average invested capital for each strategy.
  - GREFI reports on a 12 week lag. As a result, the ancillary benchmark will be reported on a quarterly lag to SCERS.
- The Private Portfolio's international exposure is 26.4%, well within its 30% constraint. International exposure is mainly Non-Core in nature, with the exception of Prologis Targeted Europe Logistics Fund.
- The SCERS Private Real Estate program has outperformed its secondary benchmarks significantly over all time periods.

## Advisory Disclosures and Definitions

### Disclosure

Trade Secret and Confidential.

Past performance is not indicative of future results.

Investing involves risk, including the possible loss of principal.

Returns are presented on a time weighted basis and shown both gross and net of underlying third party fees and expenses and may include income, appreciation and/or other earnings. In addition, investment level Net IRR's and equity multiples are reported.

The Townsend Group, on behalf of its client base, collects quarterly limited partner/client level performance data based upon inputs from the underlying investment managers. Data collection is for purposes of calculating investment level performance as well as aggregating and reporting client level total portfolio performance. Quarterly limited partner/client level performance data is collected directly from the investment managers via a secure data collection site.

<sup>1</sup>In select instances where underlying investment managers have ceased reporting limited partner/client level performance data directly to The Townsend Group via a secure data collection site, The Townsend Group may choose to input performance data on behalf of its client based upon the investment managers quarterly capital account statements which are supplied to The Townsend Group and the client alike.

### Benchmarks

The potential universe of available real asset benchmarks are infinite. Any one benchmark, or combination thereof, may be utilized on a gross or net of fees basis with or without basis point premiums attached. These benchmarks may also utilize a blended composition with varying weighting methodologies, including market weighted and static weighted approaches.

## Exhibit B: Real Estate Market Update 2Q21

# United States Real Estate Market Update (2Q21)

## General

- As a result of the COVID-19 pandemic, national, state and local governments across the world implemented stay-at-home orders, which caused a near complete halt of the world economy in the 1<sup>st</sup> half 2020. Governments dramatically expanded expenditures in order to protect people and businesses from large-scale disruption. In 2Q21, equity markets continued to bounce back from the March 2020 rout and continued to exceed prior highs, the S&P 500 produced a gross total return of 8.6%, bringing the first half of 2021 total return to 15.3%. The MSCI US REIT index continued to rebound and produced a return of 8.7% and returned to pre-COVID levels.
- The U.S. entered a recession in February 2020, but the economy has since rebounded with the accelerated development and continued rollout of vaccines. In the 2<sup>nd</sup> quarter, U.S. GDP grew at an annualized rate of 6.5%. The unemployment rate peaked in April at 14.7% and has since declined to 5.9% at quarter end 2Q21, falling an additional 10 bps from the end of 1Q21. The Federal Reserve continues to act aggressively, thus far financial markets have stabilized. The world economy shrunk by -3.5% in 2020 but is forecasted to grow 6.1% in 2021.

## Commercial Real Estate

- Through the second quarter of 2021, total transaction activity for the quarter was up 199% YoY, after significantly rebounding from a broad-based COVID-19 induced slowdown. Transaction volume has been the strongest in the apartment and industrial sectors.
- Transaction cap rates (5.2%) compressed -68 bps during the quarter. Current valuation cap rates declined for industrial (-15 bps) and apartment (-2 bps). The office (+4 bps) and retail (+21 bps) property sectors experienced cap rate expansion.
- NOI growth has substantially diverged between property sectors due to the impacts of COVID-19. Retail NOI has expanded substantially (+21%) YoY as the sector recovers from decreased rent collections and retailer shutdowns early last year. Apartment NOI contracted (-5%) YoY, primarily driven by declines in CBD effective market rents, though slowly recovering.
- In the second quarter of 2021, \$24 bn of aggregate capital was raised by real estate funds. There continues to be substantial dry powder, ~\$363 billion, seeking exposure to private real estate.
- 10-year treasury bond yields dropped 30 bps to 1.45% during the quarter, signaling disinflation rather than inflation which many expected to observe.

# United States Property Matrix (2Q21)

## INDUSTRIAL

- In 2Q21, industrial properties were the highest returning sector at 8.8% and outperformed the NPI by 520 bps.
- Transaction volumes rose to \$32.1 billion in the second quarter of the year, resulting in a 156% increase year-over-year. Individual asset sales increased 174% year-over-year, while portfolio purchases turned in a year-over-year volume increase of 111%. At slightly over \$32.1 billion, the industrial sector increased a significant \$9.7 billion quarter-over-quarter.
- The industrial sector turned in NOI growth of 10.0% over the past year, a substantial increase from the prior periods TTM growth of 6.8% in 1Q21.
- Vacancy decreased by 30 bps year-over-year to 3.1%. Vacancy in the sector decreased 40 bps from last quarter, reaching all-time historic lows. E-commerce continues to drive demand across the sector.
- Industrial cap rates compressed approximately 50 bps from a year ago, to 4.2%. Industrial overall fundamentals still top all property sectors.

## MULTIFAMILY

- The apartment sector delivered a 3.6% return during the quarter, performing in line with the NPI.
- Transaction volume in the second quarter of 2021 rose to \$57.9 billion, resulting in an increase of 271% year-over-year. This volume continues to make multifamily the most actively traded sector for the sixteenth straight quarter.
- Cap rates remained steady at 3.7% quarter-over-quarter, compressing 50 bps year-over-year. Multifamily cap rates remain at the lowest level observed in years, driven by continued increases in valuation.
- The multifamily sector saw increasing vacancy rates throughout the entirety of 2020 due to the global pandemic. Halfway through 2021, the sector appears to have shaken the trend as vacancy rates decreased 140 bps quarter-over-quarter, now 170 bps lower than a year ago and back to pre-pandemic levels. The aging millennials have begun shifting their desires to suburban living, but continued home price appreciation has deterred the full effect of this migratory trend.

## OFFICE

- The office sector returned 1.4% in 2Q21, 220 bps below the NPI return over the period.
- Transaction volumes increased by 105% year-over-year in the second quarter. Transaction volume equaled \$27.8 billion for the quarter, an increase of \$6.2 billion quarter-over-quarter. Single asset transactions accounted for 75.4% of volume.
- Office sector vacancy rates have expanded since the beginning of the pandemic due to work from home orders and uncertainty revolving around the future of office space. Office continues to be the highest vacancy property type at close to 12.7%, expanding 30 bps from last quarter.
- NOI growth in the office sector fell quarter-over-quarter by 40 bps but appears to have begun its slow recovery to pre-pandemic values as it has increased 20 bps since the same period last year.
- Office cap rates remained flat from a year ago, sitting at approximately 4.8%. Office-using job growth was stunted significantly through out 2020 due to many work from home orders. Though we are observing a slow but steady flow back to in-office work, there is still uncertainty in the sector as many companies remain hesitant.

## RETAIL

- As of 2Q21, the retail sector delivered a quarterly return of 0.9%, performing 270 bps below the NPI.
- Transaction volumes totaled \$15.0 billion in the second quarter, increasing 177% year-over-year. Single asset transactions accounted for just over 86.5% of all sales volume for the quarter.
- Cap rates have expanded approximately 80 bps within the sector over the last year, to 5.2%. The current valuation cap rate did expand quarter-over-quarter by 20 bps due to slight downward valuation adjustments made across the sector in general.
- NOI growth significantly increased, +21.1% over the last year. This is a 38.4% increase from last quarter. Retail has begun its slow recovery as vaccine rollouts increase store openings and foot traffic.
- Retail vacancy rates compressed over the quarter by 20 bps, though still up 180 bps over the past year to 9.7%. Many big box stores have closed as the need for retail space shrinks, translating to a negative outlook for rent growth. Paired with the global economic crisis, which has had a significant negative impact on this sector.

# Global Real Estate Market Update (2Q21)

- With vaccinations ramping up and economies reopening worldwide, global investment activity during the second quarter of 2021 has experienced a robust rebound 2Q21 to US \$260.4 billion, a 98% growth year over year. During 2Q21, transaction volumes recovered significantly in the APAC regions while the emerging markets continued to experience significant depression.

- Increased availability of the vaccine has driven an uptick in investor appetite, specifically in regions that were among the first to be affected by the virus such as APAC. Interest in the quarter was concentrated primarily in industrial and multifamily properties.

- Investment activity in the Americas witnessed an extreme surge to by 161% year-over-year. Transaction volume in the US increased 176% relative to 1Q21.

- In the Asia Pacific region, volumes grew by 99% year-over-year with vaccination rates picking up in the region and activity largely returning to normal. Mainland China (+117%), India (+354%), and Hong Kong (+270%) saw the most improvements in deal activity year over year in 2Q21.

- Large ticket transactions contributed greatly to investment activity dropped in the EMEA region. Deals of US \$1 billion or more accounted for 25% of the region's investment volume. Additionally, cross-border transactions grew 65% year over year in Q2

- In the office sector, global leasing activity improved by 44% year-over-year and vacancy rates increased by 60 bps to 14.3%. Office re-entry rates have varied significantly by country and a multi-speed recovery is emerging dependent on vaccination rates, outbreaks and societal restrictions in place. This adds to the long-term uncertainty with long term space planning for occupiers. US coastal markets have been more affected than lower-cost and high-growth markets. Across the main European markets, office rents across Europe grew (+0.3%) over the quarter. On an annual basis rents are now just (-0.2%) year over year. In the APAC region, net absorption increased by 20% year over year.

- Globally, retail foot traffic and sales continue to increase from COVID-19 pandemic lows with increased vaccination rates and easing of restrictions. Retailers have expanded omnichannel strategies such as click-and-collect, curbside pickup and ship-from-store. In many cases, retailers are implementing a hybrid store model that fully integrates retail with logistics. As online sales grow, retailers will reevaluate their store portfolios in terms of store size, location and use. The overall level of occupied retail space will continue to shrink in some U.S. and European markets, while APAC markets will be relatively unchanged.

- With the multifamily market recording the quarter's only increase in investments globally, the sector remains the most liquid in commercial real estate highlighting its attractiveness. Throughout the world, the re-opening of businesses and returns to the office has contributed to a pickup in urban demand, leading to a growth in asking rents, as the number of tours and leases increased during the quarter.

- Industrial yields continued to compress due to strong market fundamentals and heightened demand. US vacancy rates fell to 4.8% in 2Q21. EMEA vacancy rates declined to 3.6% for the quarter, while the Asia Pacific region saw a rise to 18.0%.
