#### **PURPOSE**

#### **SCERS ALTERNATIVE ASSETS PORTFOLIO RETURNS**

This memorandum provides a summarized table of SCERS' Alternative Assets period returns, which complements Cliffwater's Quarterly Performance Review, and highlights notable manager performance, along with any recent alternative investments made by SCERS. The returns for the private market asset classes shown in the table below, and provided within Cliffwater's reports, are lagged a quarter and reflect valuations as of March 31, 2020. Therefore, returns for the first quarter reflect the impact of the market downturn caused by the pandemic. With the subsequent market recovery during the second quarter, it is expected the private market asset returns will also improve.

SCERS' alternative asset class period returns are as follows:

## SCERS PORTFOLIO RESULTS

For the reporting quarter ended March 31, 2020, on a relative basis, SCERS' Private Equity portfolio outperformed its benchmark return, -6.7% versus -8.5%. Portfolio performance was severely impacted by the market dislocation caused by the pandemic; however, small positive to flat returns were achieved in a number of venture capital strategies blunting some of the negative return. With the rally in the equity markets over the second quarter, the private equity returns are expected to see a rebound.

Similar to the Private Equity portfolio, SCERS' Real Assets portfolio was significantly impacted by the pandemic-driven market downturn, in particular the energy strategies. Unfortunately, SCERS' Real Assets portfolio return of -12.0% meaningfully underperformed the benchmark return of -9.9%.

For the reporting quarter ended June 30, 2020, SCERS' Absolute Return portfolio rebounded from the first quarter market downturn and outperformed its benchmark return, 5.7% versus 4.9%. The portfolio benefited from the Absolute Return growth strategies that took advantage of the market rally, in particular the event driven and multi-strategy managers. The Absolute Return Growth Orientated portfolio significantly outperformed its index, 10.6% versus 7.7%.
