INVESTMENT MATTERS:

Item 9. Proposed Revisions to Absolute Return Portfolio

Chief Investment Officer, Steve Davis, and Jamie Feidler of Cliffwater LLC provided a brief review of the changes that occurred as the result of the recently revised strategic asset allocation and gave an overview of the proposed changes to the Absolute Return Portfolio. The proposed revisions revolve around separating the
Absolute Return Portfolio into two sub-categories: Growth Oriented Strategies and Diversifying Strategies.

The new Absolute Return Sub-Category Parameters were presented as follows:

<table>
<thead>
<tr>
<th>New Absolute Return Portfolio Category</th>
<th>Growth Oriented Strategies</th>
<th>Diversifying Strategies</th>
<th>Current Absolute Return Portfolio</th>
</tr>
</thead>
<tbody>
<tr>
<td>Portfolio Objective</td>
<td>Equity and credit like returns over long-term with lower volatility than equities and credit markets</td>
<td>Positive absolute return profile over time with limited sensitivity to broad market performance</td>
<td>Achieve near the total fund return objective while also reducing total fund risk</td>
</tr>
<tr>
<td>Benchmark</td>
<td>Policy: HFRI FoF Composite Index + 1% Long term objective: T-bills + 5%</td>
<td>Policy: HFRI FoF Conservative Index Long term objective: T-bills + 2%</td>
<td>Policy: T-bills + 5% Short term objective: HFRI FoF Composite Index</td>
</tr>
<tr>
<td>Risk Target</td>
<td>Standard Deviation &lt; 50% of global equities</td>
<td>Standard Deviation &lt; 25% of global equities</td>
<td>Standard Deviation &lt; 50% of global equities</td>
</tr>
<tr>
<td>Market Sensitivity</td>
<td>Target an equity beta &lt; 0.5 Target equity correlation &lt; 0.8</td>
<td>Target an equity beta &lt; 0.1 Target equity correlation &lt; 0.1</td>
<td>Target equity correlation &lt; 0.5 Equity beta not explicitly defined</td>
</tr>
<tr>
<td>Market Exposure</td>
<td>Total notional gross exposure &lt; 250% ¹</td>
<td>Total notional gross exposure &lt; 750% ¹</td>
<td>Total portfolio leverage &lt; 275% ²</td>
</tr>
</tbody>
</table>

¹Total notional gross exposure equals the sum of gross long notional exposure plus gross short notional exposure, expressed as a percentage of total invested capital.

²Leverage is defined as the total long notional exposure plus the total short notional exposure, excluding leverage associated with risk-reducing tail risk protection strategies and the short exposure relating to relative value strategies, divided by the total portfolio capital.

Mr. Feidler presented the additional guidelines for the new portfolio categories as follows:

<table>
<thead>
<tr>
<th>New Absolute Return Portfolio Category</th>
<th>Growth Oriented Strategies</th>
<th>Diversifying Strategies</th>
<th>Current Absolute Return Portfolio</th>
</tr>
</thead>
<tbody>
<tr>
<td>Target Allocation</td>
<td>3% of Total Assets</td>
<td>7% of Total Assets</td>
<td>10% of Total Assets</td>
</tr>
<tr>
<td>Allocation Range</td>
<td>1% to 5% of Total Assets</td>
<td>5% to 9% of Total Assets</td>
<td>N/A</td>
</tr>
<tr>
<td>Primary Strategies ¹</td>
<td>Credit/Distressed Event Driven Equity Long/Short</td>
<td>Market Neutral Global Macro Multi-Strategy</td>
<td>Market Neutral Credit/Distressed Event Driven Equity Long/Short Global Macro Multi-Strategy</td>
</tr>
<tr>
<td>Number of Funds</td>
<td>Target 5 funds with a range of 2 to 8</td>
<td>Target 10 funds with a range of 6 to 13</td>
<td>Target 22 funds with a range of 18 to 30</td>
</tr>
<tr>
<td>Non-U.S. Exposure</td>
<td>Expect 20% to 40% non-U.S. exposure</td>
<td>Expect 20% to 50% non-U.S. exposure</td>
<td>Expect 25% to 35% non-U.S. exposure</td>
</tr>
</tbody>
</table>

¹The Primary Strategies shown reflect the types of strategies expected to be most prevalent within each of the portfolio categories. However, SCERS will categorize individual funds based upon each fund’s expected characteristics, not by a fund’s stated strategy. Each category could include any number of fund strategies.

Mr. Feidler and Mr. Davis concluded with a review of the next steps for the implementation of the proposed revisions as well as a review of two potential approaches for creating IPSs for the Absolute Return portfolio.
The Board unanimously approved staff’s recommendations on proposed revisions to the structure of the Absolute Return portfolio. (8-0)

**Administrative Matters:**

Item 12. Interim Chief Executive Officer’s Report
(This item was taken up after all other Administrative Matters.)

Ms. Annette St. Urbain provided the following update on developments affecting public retirement systems and on miscellaneous system and staff activities.

PAS Vendor Selection Update—SCERS has received the best and final offers and is conducting reference checks. A recommendation is expected to be made at the October Board Meeting.

SACRS Fall Conference – Will be held November 14-17, 2017 in Burlingame at the Hyatt Regency San Francisco Airport. The agenda for the event has been posted on the SACRS website and members of the Board will be receiving an email from staff regarding their plans to attend.

Reminder that the November Board Meeting will be held on Tuesday, November 7 at 1:00 p.m. to accommodate staff and trustee attendance at the SACRS Fall Conference the following week.
Preview of Upcoming Meetings – The October Board meeting will include the results of Cheiron’s actuarial audit and most recent experience study; an update on the Private Fund Fee and Expense Disclosure requirements under new state law (AB 2833); and giving direction to SCERS’ Voting Delegate for the SACRS Business meeting on any action items. The November Board meeting will include the results of Segal’s actuarial valuation as of June 30, 2017, as well as Board education on SCERS’ agriculture investments.

Item 13. Investment Consultant Contract Amendments to Extend and Specify Contract Duration

Chief Investment Officer Steve Davis and General Counsel Robert Gaumer, presented the staff recommendation to extend the terms of contracts with SCERS’ investment consultants: Verus Advisory, Inc., Cliffwater, LLC and Townsend Holdings, LLC. Additionally, staff made the recommendation to create more specifically defined terms for SCERS’ investment consultant contracts and to establish periodic reviews of investment consultant contracts going forward.

It was noted that during staff’s project of aggregating and reviewing SCERS’ contracts, that the contracts currently in effect were previously interpreted as in place “until terminated”. Mr. Davis and Mr. Gaumer noted that best practice is to have a specified duration for consulting services, periodically review and evaluate the scope and quality of services, and consider whether to extend the existing contracts or procure future services through a competitive solicitation.

Discussion followed.

Board Member Diepenbrock left the meeting before Board action on this item, and did not return prior to adjournment.

The Board unanimously approved the amendments to SCERS’ consultant contracts. (7-0)

Item 14. Consent to Rio Linda Elverta Recreation and Park District’s Inclusion in SCERS as a Participating Employer

Interim Chief Executive Officer Annette St. Urbain and General Counsel Robert Gaumer presented the proposed resolution to add Rio Linda Elverta Recreation and Park District as a Participating Employer in the Sacramento County Employees’ Retirement System (SCERS).

The Board unanimously approved Resolution 2017-07 to include Rio Linda Elverta Recreation and Park District as a Participating Employer in SCERS. (7-0)
Item 15. Use of Contingency Reserve in June 30, 2017 Actuarial Valuation

Interim Chief Executive Officer Annette St. Urbain presented the staff recommendation that the Board affirm the use of the $36.3 million from the Contingency Reserve to fully credit interest at the overall assumed annual earnings rate of 7.5% for fiscal year 2016-17, consistent with the Board’s Interest Crediting and Unallocated Earnings Policy which states:

"Interest will be credited in a manner designed to, and with the goal of, keeping the total actuarial valuation assets on track with the actuarial earnings assumption…..Available earnings will be comprised of (a) the actual earnings of the retirement fund based on the smoothed actuarial value of assets; and (b) funds previously set aside in the contingency reserves."

Since at least 2014, the Board has annually considered alternatives and determined how to apply unallocated earnings and use of contingency reserves in the annual actuarial valuations for the plan. Past recommendations and actions have recognized the policy goal to:

"Maintain a sound funded status of the retirement system through the reasonable and prudent application of available earnings, including establishing a level of contingency reserves sufficient to make a meaningful contribution toward mitigating future earnings shortfalls and unexpected expenses."

Ms. St. Urbain noted that the Board’s current policy specifies a number of goals, priorities and principles. In recent years, staff has submitted recommendations for Retirement Board consideration and action for the use of unallocated earnings or contingency reserves to determine contribution and reserve account balances for the annual actuarial valuation.

As part of the overall SCERS policy review project currently underway, staff anticipates recommending revisions to the Interest Crediting and Unallocated Earnings Policy that would provide sufficient guidance to staff in the normal course of business based on actual annual investment results, yet allow for alternative actions by the Board if and as warranted.

The Board unanimously approved the use of $36.3 million from the Contingency Reserve to credit interest overall at the assumed annual earnings rate for fiscal year 2016-17. (7-0)

Item 16. Annual Report on Disability Retirement Application Processing

Chief Benefits Officer John Gobel presented the annual summary and analysis of SCERS’ Disability Retirement Application processing for the fiscal year ended June 30, 2017. Mr. Gobel noted that the number of applications resolved by staff recommendations has increased overall, while the number of Administrative Hearing
decisions has decreased. The average processing time was noted to have improved slightly from the previous year.

Mr. Gobel and General Counsel Robert Gaumer noted that the SCERS Bylaw revisions that were presented to and approved by the Board at its meeting held January 20, 2016, have been submitted to the County at least twice in the months since for ratification by the County Board of Supervisors. However, the revised SCERS Bylaws have not yet been included in the Supervisor's agenda for action. County Administration expressed a strong preference to keep SCERS disability retirement process codified within the SCERS Bylaws, rather than the Disability Retirement Procedures (DRPs) that were also adopted by the Board in January 2016. Because SCERS will realize additional efficiencies in its disability retirement application processing by following the Board-approved DRPs, General Counsel is preparing another set of Bylaw amendments to incorporate the DRPs into the SCERS Bylaws for adoption by the Board of Retirement and ratification by the Board of Supervisors.

*Board Member Kelly left the meeting before discussion of this item concluded, and did not return prior to adjournment.*

**The Board accepted and filed the report.**

**ADJOURNMENT**

There being no further business, the meeting was adjourned at 12:19 p.m.
MEMBERS PRESENT: John B. Kelly (left at ~12:03 p.m.), James A. Diepenbrock (left at ~11:40 a.m.), Alan Matré, Kathy O'Neil, Steven L. Baird, Ben Lamera, Martha J. Hoover, Chris Pittman, John Conneally and Rick Fowler presiding
