RECOMMENDATION

Staff recommends the Board approve the attached Proposed Administrative Budget for the 2017-2018 Fiscal Year.

PURPOSE

In accordance with established Board policy, the Proposed Administrative Budget is to be adopted for the immediate succeeding fiscal year by June 30, and the final budget is to be adopted by August 31. The purpose of this Proposed Administrative Budget request is to serve as the operating budget for administrative expenses for the new fiscal year commencing July 1, 2017. It will remain in effect until the Retirement Board approves the Final Administrative Budget. A Final Administrative Budget request will be presented at the regular August Retirement Board Meeting.

DISCUSSION

Attached for your review and consideration is the Proposed Administrative Budget Request for FY 2017-2018. The requested administrative funding request, including IT costs is \$9,018,000, which is \$123,000 lower than in the prior fiscal year's budget. The proposed funding request for IT is \$1,130,000, which is \$730,000 less than the prior year's budget.

The administrative funding request excluding IT costs is \$7,888,000, which is \$607,000 or 8.3% higher than the Final Administrative Budget for FY 2016-2017. 'Salaries & Benefits' increased \$594,000 or 12.6%. The requested amounts for 'Services & Supplies' and 'Other Charges' were materially consistent with the prior year's request. Services and Supplies increased only \$23,000 or 1.0%, while Other Charges decreased by \$10,000 from the prior year's budgeted amount.

June 21, 2017 Page 2 of 3 Agenda item 9

Overall, the most significant changes in requested funding are discussed below:

- <u>Salaries & Wages Regular Employees (Salaries & Benefits)</u> The most significant change in 'Salaries & Benefits' is within the 'Salaries & Wages Regular Employees' account. The proposed administrative budget has been increased by \$275,000 over the prior year due to the combined effects of a 2% cost-of-living adjustment and the addition of five new positions. The increase in salaries resulted in increases in the related benefits.
- <u>Election Services (Services & Supplies)</u> Since there is no Retirement Board member election expected to be held during the 2017-2018 fiscal year, election services expense decreased from \$60,000 to zero.

The requested amount of \$7,888,000, excluding IT Costs, is only eight hundredths of one percent (.08%) of SCERS actuarial accrued liability of \$9,436,090,000 as of June 30, 2016. The requested amount is well below the statutory limit of twenty-one hundredths (.21%) of one percent even before excluding \$1,130,000 in costs of computer software and hardware and related consulting services.

Please note that the investment staff positions have been referenced throughout the Proposed Administrative Budget; however, the salaries for these positions do not impact administrative costs, since they will be fully charged to investment expenses.

BACKGROUND

Pursuant to Government Code Section 31580.2, the statutory limit for the budget year's administrative expenditures shall not exceed the greater of twenty-one hundredths of one percent (.21%) of the accrued actuarial liability of the retirement system or \$2,000,000 as adjusted annually by a specified annual cost-of-living adjustment. This statutory limit excludes the costs of administration expenditures for computer software and hardware and computer technology consulting services. Page 15 of the Proposed Budget Request summarizes the calculation of the statutory limit compared with SCERS' administrative budget request.

The budget presentation includes columns representing 'Total Funding' and 'Administrative Funding' for the current and upcoming fiscal years. Total Funding includes amounts associated with both administrative costs, expenses charged against investment earnings, and IT costs. Administrative Funding Including IT Costs represents a consistent presentation with the audited financial statements. Columns identifying information technology (IT) funding requests are also included since expenditures for computer software, computer hardware, and computer technology consulting services in support of these computer products are not considered a cost of administration of the retirement system and are excluded from the calculation of the statutory limit of administrative expenses. Administrative Funding Excluding IT Costs includes only the amounts which have been allocated to administrative expenses for purposes of assessing compliance with the statutory limit on administrative expenses.

Note: Establishing a direct investing platform compared to investing in fund-of-funds vehicles within the alternative assets portfolio will make year-to-year comparisons difficult. While SCERS' fund-of-funds investments invest in underlying funds directly, the investment fees for these funds are not displayed, and it is only the fees for the fund-of-funds that are included. Accordingly, this will make fund-of-funds investments appear less expensive than if both sets of fees were displayed.
